12 to 15 feet	4.00	35.00	325.00

The large grades will be properly cut back before shipping; we dig them with enough roots to make them grow and you will gain 3 or 4 years by planting the large sizes.

Much has been said and written about Pedigreed, Bred-Up and other hi-sounding terms for pecan trees; these make nice reading but don't mean anything. Our trees are as good as any and better than many. We invite comparison.

We are daily getting reports from our customers saying that trees they bought from us four and five years ago are bearing nicely.
